

International Conference on Regional Climate: CORDEX 2016

17th to 20th May 2016 in Stockholm, Sweden

Early Career Scientist Event: 'Communicating Climate Science'

19th May 2016, 17:00 at Stockholm University

Who can participate?

The event is open to all registered Early Career Scientists and students participating in the CORDEX conference. Senior scientists willing to interact and share their experience with ECS are also welcome!

Why attend?

This dedicated ECS event offers a great opportunity for networking, exchanging ideas and developing collaborations for early career scientists. It will be an interactive session touching upon the complex topic of communicating climate science. Asher Minns, communication expert at the UK Tyndall Centre, HELIX and CRESCENDO will give a stand-and-deliver talk and several early careers scientists will shortly present communication challenges from their current research. It promises to be an interactive, informative and inspiring session. See you on Thursday 19th May.

What is going on?

Time	Activity	Who
17:00	Opening & introduction	Helena Martins <i>Science Communicator at Rosby Center – SMHI</i>
17:00 – 18:00	ECS session on 'How to communicate your climate science'	Asher Minns <i>Communication Manager of the Tyndall Centre in the UK Communication & Dissemination leader of EU FP7 project HELIX and H2020 project CRESCENDO</i>
	Research communication examples from early career scientists	4-5 early career scientists
18:00 – 18:30	Questions & answers	All participants
18:30 – 19:00	Drinks & bites	All Participants

Questions? Please contact Helena Martins, helena.martins@smhi.se
